”EPS achieves another milestone in Health & Safety”

After many months of hard work and effort EPS were recently awarded the Safe-T-Cert from the Construction Industry Federation.

EPS are now certified in operating a Health and Safety Management System in accordance with the requirements of the Safe-T-Cert System for the Design, Build and Operation of Water and Wastewater Treatment Systems.

This award is further recognition of the ongoing efforts by all in the group in being proactive towards our health and safety commitments in all of our activities.

Accepting the award from Tom Parlon – Director General of the CIF are John Lynch and Margaret Carmody.
